CUSTOMER INFORMATION:

1a. Table of Awarded Special Item Number(s) with appropriate cross-reference to page numbers:

SIN	Recovery	SIN Description
871-1	871-1RC	Strategic Planning for Technology Programs/Activities
871-2	871-2RC	Concept Development and Requirements Analysis
871-3	871-3RC	System Design, Engineering and Integration
871-4	871-4RC	Test and Evaluation
871-5	871-5RC	Integrated Logistics Support
871-6	871-6RC	Acquisition and Life Cycle Management

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract.

SINs: 871-1, 871-2, 871-3, 871-4, 871-5, 871-6	Program Analyst I	\$53.96
--	-------------------	---------

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided.

2. **Maximum Order:** \$1,000,000.00
3. **Minimum Order:** \$100.00
4. **Geographic Coverage (delivery Area):** Domestic only
5. **Point(s) of production (city, county, and state or foreign country):** Same as company address
6. **Discount from list prices or statement of net price:** Government net prices (discounts already deducted).
7. **Quantity discounts:** None Offered
8. **Prompt payment terms:** 1%-10 days; Net 30 days
- 9a. **Notification that Government purchase cards are accepted up to the micro-purchase threshold:** Yes
- 9b. **Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold:** Will not accept over \$3,000
10. **Foreign items (list items by country of origin):** None
- 11a. **Time of Delivery (Contractor insert number of days):** Specified on the Task Order
- 11b. **Expedited Delivery.** Contact Contractor
- 11c. **Overnight and 2-day delivery.** Contact Contractor
- 11d. **Urgent Requirements.** Contact Contractor

12. **F.O.B Points(s):** Destination

13a. **Ordering Address:**

Ausley Associates, Inc.
46611 Corporate Drive, Suite 101
Lexington Park, MD 20653

13b. **Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's), and a sample BPA can be found at the GSA/FSS Schedule homepage (fss.gsa.gov/schedules).**

14. **Payment address(es):**

Ausley Associates, Inc.
46611 Corporate Drive, Suite 101
Lexington Park, MD 20653

15. **Warranty provision.:** N/A

16. **Export Packing Charges (if applicable):** N/A

17. **Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level):** N/A

18. **Terms and conditions of rental, maintenance, and repair (if applicable):** N/A

19. **Terms and conditions of installation (if applicable):** N/A

20. **Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable):** N/A

20a. **Terms and conditions for any other services (if applicable):** N/A

21. **List of service and distribution points (if applicable):** N/A

22. **List of participating dealers (if applicable):** N/A

23. **Preventive maintenance (if applicable):** N/A

24a. **Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants:** N/A

24b. **If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contactor's website or other location.) The EIT standards can be found at: www.Section508.gov/.**

25. **Data Universal Numbering System (DUNS) number:** 844213988

26. **Notification regarding registration in Central Contractor Registration (CCR) database:** Registered

27. **Final Pricing:**

The rates shown below include the Industrial Funding Fee (IFF) of 0.75%.

Labor Category Descriptions

Labor Category	Position Description	Years of Exp	Education
SME-1	Possesses knowledge in designated field or discipline. Supports assessments of the client's challenges using specialized skills and knowledge. Contributes to the execution of project or task plan and helps assess the impact of industry trends, policy or standard methodologies. Conducts activities in support of the project team's objectives. Works closely with senior task leads.	5	Associates degree. Substitution: Technical certificate or military training/schooling equivalent to a technical certificate in field of expertise and 2 years of additional experience may be substituted for an Associate's degree.
SME-2	Possesses demonstrated knowledge in designated field or discipline. Possesses significant experience providing solutions to the client's challenges through the application of knowledge gained through similar prior engagements. Participates in the development of solutions by leveraging knowledge of the designated field or discipline. Contributes to the implementation of engineering strategies and helps assess the impact of engineering trends, policies, and/or standard methodologies. Directs the activities of other staff as necessary on activities related to the specified field or discipline.	10	Bachelor's degree in related discipline; Master's preferred. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.
SME-3	Senior expert with extensive knowledge in designated field or discipline. Provides insight and recommendations concerning task or project strategic direction and outcomes. May contribute to the evaluation, analysis, and development of recommended solutions. Resolves complex problems, which require an in-depth knowledge of subject matter related to the designated field or discipline. Applies principles and methods of the subject matter to specialized solutions. Generally possess demonstrated ability and experience in engineering practices and cross-team facilitation at the senior level.	12	Bachelor's degree in related discipline; Certificate or advanced training in designated field Master's preferred. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.
SME-4	Senior expert with extensive knowledge in designated field or discipline. Provides insight and recommendations concerning task or project strategic direction and outcomes. Contributes to the evaluation, analysis, and development of recommended solutions. Resolves complex problems, which require an in-depth knowledge of subject matter related to the designated field or discipline. Applies principles and methods of the subject matter to specialized solutions. Possess knowledge and depth of experience in engineering and cross-team facilitation at the senior level. Other areas of expertise may include, but are not limited to, business process reengineering, statistical process control, individual and organizational assessment and evaluation, process modeling and simulation, and the development of leadership skills.	15	Bachelor's degree in related discipline; Certificate or advanced training in designated field; Master's preferred. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.

Labor Category	Position Description	Years of Exp	Education
Program Analyst-1	Performs program management, technical analysis, or engineering support. May assist with designing, developing, implementing and maintaining engineering solutions. Collect, complete, organize and interpret technical data and/or financial information relating to client’s projects or products. Works directly with clients and project/program managers to identify analytical requirements. May apply policies and procedures for financial or program planning. Track program/project status and schedules.	0	Bachelor's degree in related discipline preferred; An Associate's degree and four (4) yrs. of additional experience may be substituted for a BA/BS.
Program Analyst-2	Performs program management, technical analysis, or engineering support. May design, develop, implement and maintain engineering solutions. Collect, complete, organize and interpret technical data and/or financial information relating to client’s projects or products. Works directly with clients and project/program managers to identify analytical requirements. May apply policies and procedures for financial or program planning. Track program/project status and schedules. Knowledge and capability in planning, management, budgeting, coordinating, technical requirements, and contract requirements. Ability to track action items, develop metrics, develop and track risk mitigation plans, and develop and track plans of action and milestones.	4	Bachelor's degree in related discipline; An Associate's degree and four (4) yrs. of additional experience may be substituted for a BA/BS. An additional four (4) years of experience may be substituted for a BA/BS.
Program Analyst-4	Performs program management, technical analysis, or engineering support. May design, develop, implement and maintain engineering solutions. Collect, complete, organize and interpret technical data and/or financial information relating to client’s projects or products. Works directly with clients and project/program managers to identify analytical requirements. Applies policies and procedures for financial or program planning. Track program/project status and schedules. Demonstrated knowledge and capability in planning, management, budgeting, coordinating, technical requirements, and contract requirements. Develop metrics, develop and track risk mitigation plans, and develop and track plans of action and milestones.	10	Bachelor's degree in related discipline; Master's preferred; Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.
Program Analyst-5	Performs program management, technical analysis, or engineering support. May design, develop, implement and maintain engineering solutions. Collect, complete, organize and interpret technical data and/or financial information relating to client’s projects or products. Works directly with clients and project/program managers to identify analytical requirements. May apply policies and procedures for financial or program planning. Track program/project status and schedules. Knowledge and capability in planning, management, budgeting, coordinating, technical requirements, and contract requirements. Ability to track action items, develop metrics, develop and track risk mitigation plans, and develop and track plans of action and milestones.	15	Bachelor's degree in related discipline; Master's preferred. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.
Program Manager-2	Acts as the overall lead, manager, and administrator for the contract effort. Serves as the primary interface and point of contact with Client program authorities and representatives on technical and program/project issues. Supervises contractor personnel program operations by developing procedures, planning and directing execution of the engineering, technical, maintenance, and administrative support effort and monitoring and reporting progress. Has financial responsibility for cost, schedule, and technical aspects of program and associated projects of all efforts executed under assigned contract. Leads large programs that have multiple complex subordinate projects. May delegate task order lead to Project Manager.	10	Bachelor's degree in related discipline; Master's preferred. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.

Labor Category	Position Description	Years of Exp	Education
Project Manager-2	Performs day-to-day management of assigned task order projects that involve teams of analysts, SMEs, and engineers involved in analyzing, designing, integrating, training, testing, documenting, implementing, and maintaining large complex systems. Demonstrates proven skills in those technical areas addressed by the task order to be managed. Organizes, directs, and coordinates planning and production of all activities associated with assigned task order projects.	6	Bachelor's degree in related discipline. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.
Project Manager-3	Performs day-to-day management of assigned task order projects that involve teams of analysts, SMEs, and engineers involved in analyzing, designing, integrating, training, testing, documenting, implementing, and maintaining large complex systems. Demonstrates proven skills in those technical areas addressed by the task order to be managed. Organizes, directs, and coordinates planning and production of all activities associated with assigned task order projects.	10	Bachelor's degree in related discipline. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.
System Architect Analyst-3	Provide oversight to customer program, solution architecture development process. Collaborate with the customer to ensure interoperable capabilities are documented in the solution architecture. Must have experience with System Architect, DOORS, System Architect-DOORS interface, DoDAF, NR-KPP, Information Support Plan, and DISA's Enhanced ISP tool. Provide analysis of customer's architecture products and requirements, develop a clear linkage between the two and demonstrate how the constituent elements of the architecture products developed in System Architect could be traced back to the established system requirements in the DOORS database. Associated tasks may include simulation and modeling and/or independent verification & validation.	8	Bachelor's degree in engineering, computer science, or equivalent technical degree required. Master's preferred. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.
System Architect Analyst-2	Analyze and revise architecture and modeling work related to acquisition, engineering, and program management efforts. Provide subject matter and process expertise to include recommendations on DoD Architectural Framework and Engineering Architecture using software. Develop Unified Modeling Language Use Cases and Activity Diagrams. Provide expert judgment and analysis for the design, development, and implementation of technical products and systems.	4	Bachelor's degree in engineering, computer science, M&S or equivalent technical degree required. Master's preferred. Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.
System Engineer-2	Provides engineering support on systems, system elements, and/or interfacing systems, components, devises and/or processes. Possesses general working knowledge of industry practices, standards, and technology areas. Prepares, reviews, and evaluates documentation, specifications, test plans, and procedures. Assists in definition, analysis, and allocation of requirements.	2	Bachelor's Degree in engineering, physics, or equivalent technical degree is required.

Labor Category	Position Description	Years of Exp	Education
System Engineer-3	Provides engineering support on systems, system elements, and/or interfacing systems, components, devices, and/or processes. Possesses general working knowledge of industry practices, standards, and technology areas. Prepares, reviews, and evaluates documentation, specifications, test plans, and procedures. Participation in requirements analysis and requirements definition. Supports the generation of technical engineering products by using the appropriate standards, processes, procedures, and tools throughout the system maintenance life cycle	6	Bachelor's Degree in engineering, physics, or equivalent technical degree is required.
Engineer-3	Responsible for design, development, implementation, and analysis of technical products and systems. Performs engineering design evaluations. May develop a range of products. Recommends alterations to development and design to improve quality of products and/or procedures. Demonstrates expertise in standard concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. A wide degree of creativity and latitude is expected.	6	Bachelor's Degree in engineering discipline required.
Logistics Analyst-2	Perform various tasks related to the development, operation, evaluation, and improvement of supportability and maintainability and overall repair of systems throughout their life cycles. Develop and evaluate various Integrated Logistics Support (ILS) documents and plans.	5	Bachelor's degree in related discipline; Substitution: 4 years of additional experience may be substituted for a Bachelor's degree or an Associate's degree and 2 additional years of experience.

Service Contract Act: The Service Contract Act (SCA) is applicable to this contract as it applies to the entire PES Schedule and all services provided. While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories.
